

Downtown

design Oiva Toikka / 2011

Downtown is a shelving system designed by Oiva Toikka.

It's made in rotational-moulded polyethylene. Suitable for outdoor use. This sculptural object invites kids to use a skyscraper as a bookcase to store books and toys, which is functional and funny at the same time.

Available in white, it can be used in any environment, from the bedroom to the living area, creating a unique corner with an original design.
