

# Nido

design **Javier Mariscal** / 2005

This strange creature, designed by Javier Mariscal, greets you with its open mouth and wide-eyes, and will be an ideal playmate for your children when they will want to mess around. We want to tickle his feet, to cross it as if being within a tunnel, to cling to his eyes or to climb on its back.

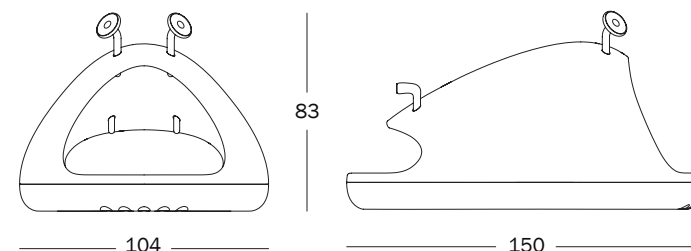

Made of polyethylene in rotational moulding, Nido is durable, easy to clean and also suitable for outdoor use. Inside there is a floor with a grass style pattern and graffiti on the underside of the roof. It's a hut, hiding place, cozy nest and cave in one combination.
